The 2013
One-Touch Silver kettle

**The Weber kettle:
Australia's roasting wonder!**

In the pursuit of culinary 'perfection' some people spend 5, 10, even 15 thousand dollars trying to find the very best cooking equipment. Electric, gas or microwave, when they get it home they discover something amazing. They discover there's no cooking appliance in the world that can produce a roast to go anywhere near the outstanding flavour and juiciness of a good old 'Weber kettle roast'.

Over 60 years old and still going strong.

It's hard to believe the Weber kettle was invented over 60 years ago. There doesn't seem to be any end to its popularity; its sales come in waves and recently have been escalating again.

More and more children of the original Weber kettle pioneers are rediscovering, in fact demanding, the magic of Weber kettle cooking.

The Weber kettle flavour you just can't get any other way.

Australians, in search of complete outdoor cooking mastery, have voted with their feet.

They now have a modern gas barbecue for everyday cooking and a Weber kettle for 'serious' barbecue occasions when the quality of food is everything. Word of mouth has seen over a million Weber kettles sold in Australia so far and all because Weber cooked hams, roasts and poultry have astounded guests with a delicious flavour that you just can't get any other way.

The Australian Barbecue Icon. Why is this so?

We know that our kettle has changed Australian attitudes towards barbecuing forever. Back in the 1970s and 80s it was our kettle and its indirect cooking system that first allowed ordinary Australians to roast whole joints of meat outdoors. Even now, the incredible flavour of these barbecue roasts still distinguishes our kettle from all the other barbecues sold in this country. That's why so many Weber kettles have been sold and that's why it's the only barbecue in Australia to ever attain icon status. Everyone agrees that it's synonymous with spectacular food and memorable entertaining.

Indirect cooking: how it works.

We use two fires instead of one. The fat from the turkey will drop into the disposable drip tray below. This

means that you get much healthier, fat free roasts, without any flare ups. We call this 'indirect cooking' because the food is cooked using natural convection without any fire directly underneath it.

Apart from the unforgettable flavour, the great advantage of using this method of cooking is that you don't even have to turn the meat. Your barbecue cooks the most extraordinary roast, every time, all by itself.

Top selling cookbook ensures Weber kettle mastery.

For over 20 years we've recommended that our kettle owners buy 'The Complete Australian Barbecue Kettle Cookbook'. We know it ensures that you will become a master Weber kettle chef. That's why these days, not only do we recommend the book, we include it with all of our 57cm kettles. It's our guarantee of your success. It is a remarkable hard bound cookbook (224 pages, 200 colour photographs, over 400 recipes, complete with useful barbecue tips and troubleshooting). We think there's probably no better product handbook in the world.

Weber® Premium Charcoal Barbecues

The New One-Touch Range

Every Weber One-Touch kettle sold in Australia now includes a lid mounted thermometer to monitor the cooking temperature inside the barbecue. Controlling the temperature inside your kettle for roasting, smoking and baking has never been easier. Of course, the new One-Touch range still comes with everything you need to produce those amazing roasts Weber is famous for: Char-basket fuel holders, Rapidfire™ V grates for faster light up, a heavy gauge aluminium drip pan and a 224 page full colour, hard back cookbook to all but ensure you get great results.

The Weber® One-Touch™ Silver.

This is the Weber kettle that everyone knows; it's the most popular model sold in Australia. The handles and leg couplings are welded to the barbecue (not bolted) before being sealed in porcelain enamel.

This kettle is fitted with Weber's patented One-Touch cleaning system manufactured in non-rust aluminium. This cleaning system operates by simply moving the lever backwards and forwards to remove ashes and sweep them into the ash catcher. It is fitted with one welded handle at the front of the barbecue. This kettle can be fitted with Weber's unique gas burner system.

The Weber® One-Touch™ Gold.

The One-Touch Gold has all the features that made the One-Touch Silver world famous but instead of an open ash catcher it features a special high capacity saucepan-like container that traps the ashes. The 'Gold' One-Touch cleaning system is made from premium grade aluminised steel and comes factory assembled.

The Weber® One-Touch™ Gold Premium.

The One-Touch Gold Premium is the top of the range free standing kettle. It has all of the features of the One-Touch Gold plus a Tuck-Away lid holder and Weber's new Gourmet barbecue System cooking grill. The Tuck-Away lid holder allows the lid to slide back and out of the way when accessing your roast and the new Gourmet Barbecue System means you can add variety and excitement to your

outdoor cooking. Create the ultimate charcoal cooking system by adding a sear grate, wok, pizza stone or griddle (see accessory pages for details).

The Weber® Performer™ Silver.

The new Weber Performer Silver is the perfect kettle barbecue for anyone who wants the convenience of a work surface and storage area but has limited space. The sturdy steel work table easily folds down when not in use and the heavy duty steel cart provides space for storage under the barbecue. The Performer Silver also features a Tuck-Away lid holder that allows the lid to slide back and out of the way when accessing your roast.

And, because it comes equipped with the new Weber Gourmet Barbecue System cooking grill, you can create the ultimate charcoal cooking system by adding a sear grate, wok, pizza stone or griddle (see accessory pages for details).

The Weber® Performer™ Gold.

The ultimate Weber kettle is the Performer Gold. The convenient work surface is made of heat resistant thermoset resin and underneath is a pull-out storage bin for items such as smoking woods and drip trays.

The Performer Gold also features a Tuck-Away lid holder that allows the lid to slide back and out of the way when accessing your roast. And, with the new removable digital cooking timer, you can take the guess work out of timing those magnificent Weber roasts to perfection. The Performer Gold also features the new Weber Gourmet Barbecue System cooking grill (see accessory pages for details).

The Weber Performer is the ultimate 57cm charcoal kettle.

Weber® Portable Charcoal Barbecues

Wherever you want to barbecue, whenever you want to barbecue - with that great Weber flavour. That's the idea behind Weber's range of portable charcoal barbecues.

The Smokey Joe®.

The Smokey Joe is a miniature version of the famous Weber kettle. The ideal first barbecue for teenagers or young adults ... people on the move, people having fun. Incredibly, this cute little barbecue has nearly 1,000cm² of cooking area ... just perfect for two or three people. A beautiful porcelain enamelled finish prevents rust and makes cleaning easy too. The Smokey Joe comes with Weber's 10 year limited warranty.

The Weber® Go-Anywhere™.

The ultimate in hibachi style cooking, providing perfectly grilled steaks or satays over glowing charcoal. Unlike traditional hibachis, the lid enables you to smoke fish and can also be angled to act as a windbreak. The Weber Go-Anywhere has legs that fold up to hold the lid in place when carrying.

A beautiful porcelain enamelled finish prevents rust and makes cleaning easy too. Built to last, it comes with Weber's 10 year limited warranty.

The Weber Go-Anywhere is the ultimate in hibachi style cooking.

The Weber Smokey Joe

The Weber Go-Anywhere

Weber® Specialty Kettle Barbecues

Weber® Ranch™

The legendary Weber Ranch is the largest barbecue kettle in the world. This kettle will cook for the biggest family or is the ideal investment and profit earner for clubs and caterers. With 6900cm² of cooking area, the Ranch cooks crowd pleasing feasts with the magnificent Weber flavour.

Come rain, hail or shine, the Ranch will cook a whole lamb in just under two hours. The ash catcher is made of heavy gauge, porcelain coated steel and can be lifted out for easy ash disposal and cleaning.

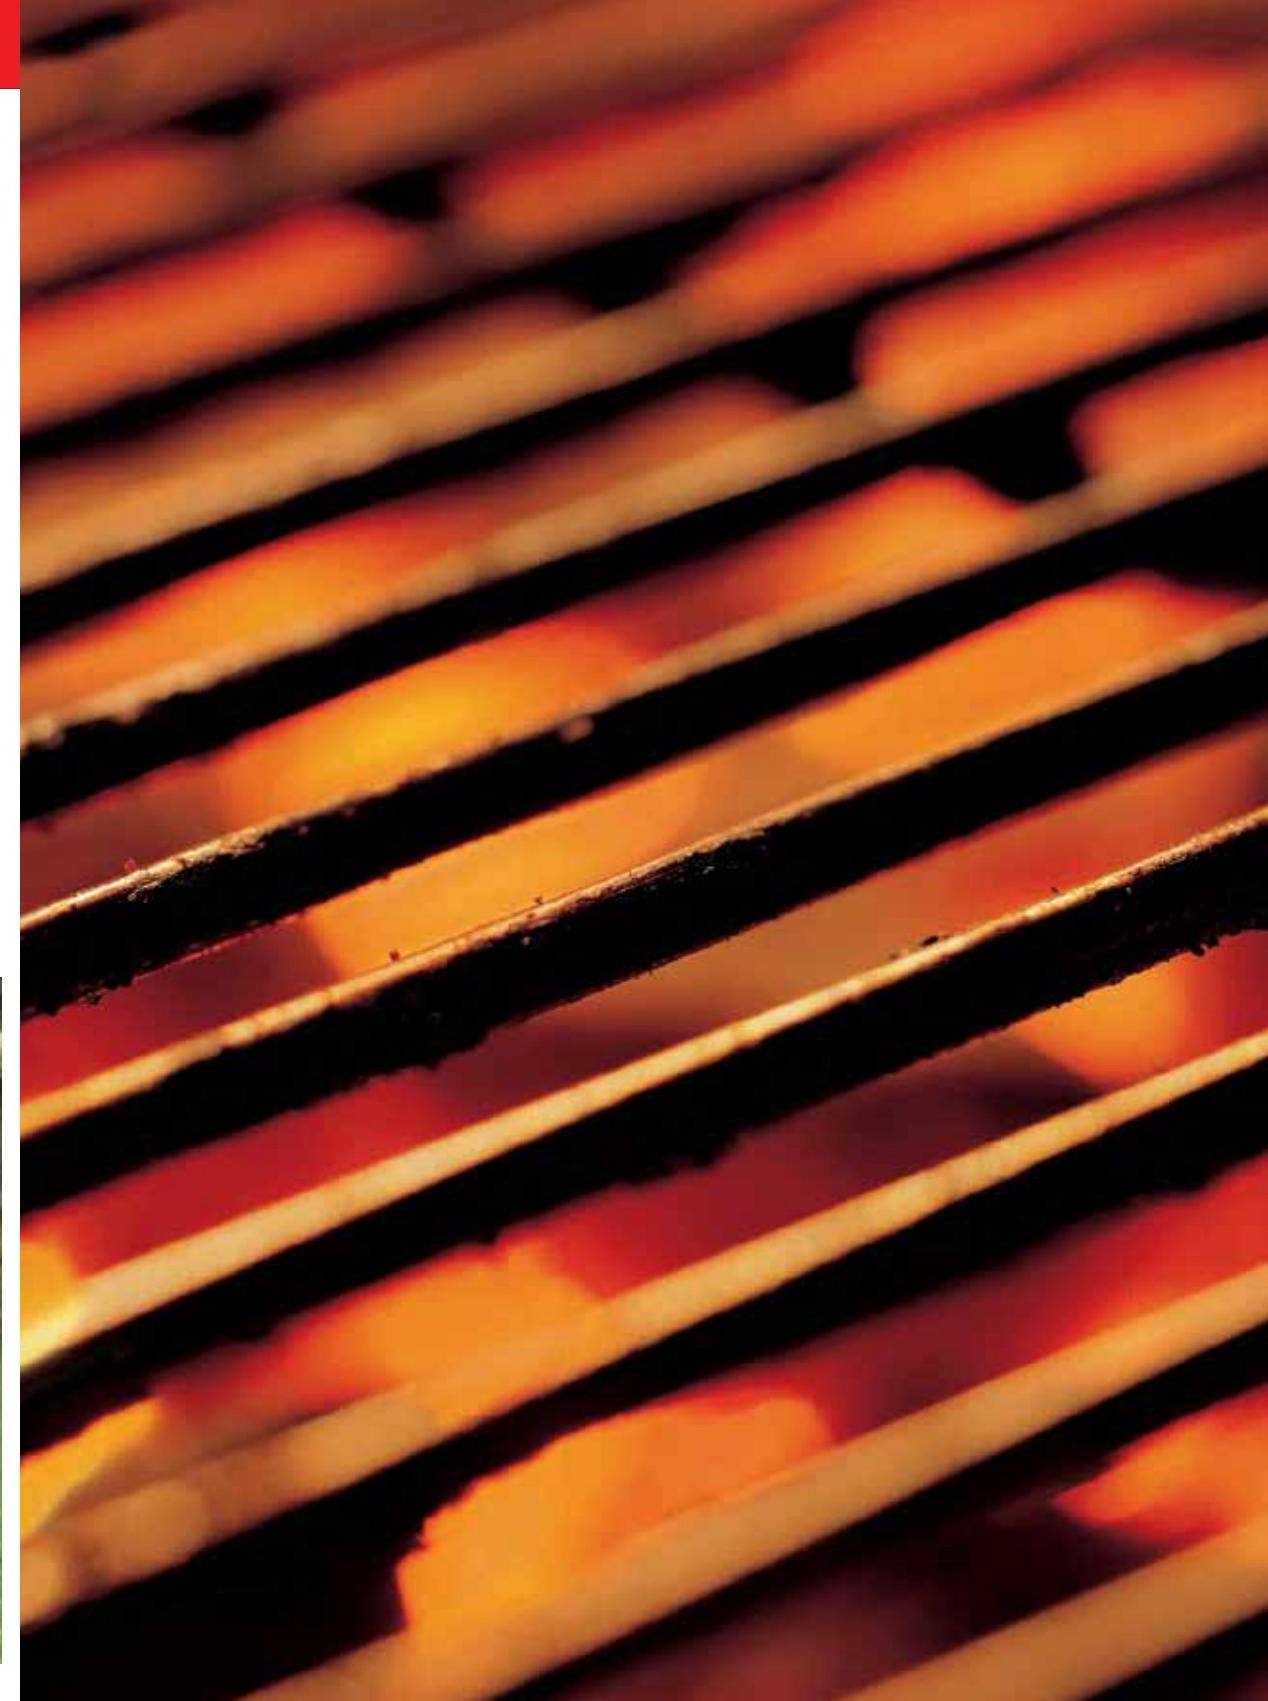

Weber® Smokey Mountain Cooker™

If you want to get serious about smoking, you'll love Weber's Smokey Mountain Cooker. Inside, a porcelain enamelled water pan generates steam to keep the cooking temperature low and even. As a result, the foods are tender, succulent and moist. Smouldering smoke combines with the steam and filters up through the double racks, encircling hams, fish, poultry or sausage to produce beautiful flavours. The Smokey Mountain Cooker is perfect for home-made bacon. The smoker is made from heavy gauge steel sealed in porcelain enamel that won't peel, stain or burn. The cookbook includes an easy reference smoker cooking chart and all the information you need to get you started. Also included with the Smokey Mountain Cooker is a premium quality vinyl cover.
